

Biographical Note

Frank Steinmeier is the Vice President for Global Customer & Product Quality Management in Weidmüller Group, Detmold, Germany. Therewith he is part of the Weidmüller Global Management Team and is in charge of the quality footprint in our product-oriented Divisions and to all customer related quality activities.

For more than 20 years, Frank is working on Quality for electronics and electro mechanics, of which he spends more than 15 years at Weidmüller.

He brings quality to everywhere, where products and services are bought, developed, produced and sold and calls himself a quality enthusiast who desires to make everybody a quality guy. In his current position, he oversees Product and Customer Quality Management, leading several teams on global level. Frank is a result-driven quality leader with an eye for feasible ways and digitalization. He knows that it takes a lot of effort to make things simple, but it is worth to go for!

Frank holds a degree in production engineering and is certified EOQ Quality Manager and Auditor. He actively works in the expert circle for excellent customer service in the German DGQ. Moreover, he is Excellence EFQM Assessor and Six Sigma Green Belt.
