

Biographical Note

LIU Xiaoye, born in Shanghai, China, holds a Master's degree and obtains the titles of senior engineer, senior political instructor, and economist. Currently, she serves as the Deputy General Manager of Shanghai Urban Operation (Group) Co., Ltd., and also as the Chairman of the Board of Shanghai Pujiang Bridge Tunnel Management Co.,Ltd.

In charge of the company's brand management, Liu Xiaoye actively leads quality management efforts and takes the lead in introducing and implementing the "Excellent Performance Management Model" in the context of enterprise digital transformation. Under her leadership, the company's "Urban Tunnel Operation & Maintenance Service" as well as "Bridge Precision Maintenance Service" have both been awarded the "Shanghai Brand" service certification, and the "Tunnel Operation and Maintenance Service Standard" has won the "Shanghai Standard" certification. Moreover, the company has been selected as a pilot project for "National Service Industry Standardization" and becomes the first operation and maintenance resource integrator to hold "Dual Brand, One Standard" certification. Liu Xiaoye actively strengthens communication and exchanges with the industry and associations, always staying at the forefront of quality management.
