 - Inmold Group d.o.o.
- 2020–2022
Head of Quality Control Department
 - Inmold plast d.o.o.

Education

- 2014-2019
BSc, MSc, Faculty of Organizational Science, Belgrade

As the Quality Team Leader at Inmold Group, I hold a pivotal role in overseeing and managing a range of quality and environmental management systems at a company-wide level.

My responsibilities include:

- Leading and managing the company-wide Quality Management System.
- Ensuring compliance with ISO 9001 requirements in the management of the Quality Management System.
- Overseeing the Environmental Management System in strict accordance with ISO 14001 standards.
- Managing the Quality Management System to meet the rigorous demands of IATF 16949.
- Coordinating cross-functional teams for the successful implementation of ISO 27001, ISO 45001, and ISO 50001 standards.
- Organizing and planning both internal and external audits to evaluate the effectiveness of our systems.
- Vigilantly observing and controlling the application of quality tools at the company level.
- Carefully monitoring and controlling the development of new projects.

My extensive experience in quality and environmental management has allowed me to make significant contributions to the success of the Inmold Group while ensuring the highest standards of quality and environmental responsibility.
