

Biographical Note

Pedro Cardoso

Bosch Corporate Quality Management

Pedro Cardoso has been a driving force in the field of quality management for 27 years, with a remarkable 24-year tenure at Bosch and 3 years at Philips in the Netherlands. His life journey is built on a foundation anchored by three key pillars: family (a devoted husband and father), sports (an enthusiast of running and surfing), and work (a coach of high-performance teams).

Pedro's unwavering passion for Quality and Innovation has been the guiding star throughout his career. He has spent over two decades in various management roles, consistently delivering outstanding results. His approach is characterized by a robust business orientation, translating strategy into tangible achievements.

Pedro holds a degree in mechanical engineering, specializing in manufacturing technology, from the University of Minho in Portugal. Furthermore, he possesses a master's degree in project management and has received Business Management education from the esteemed Robert Bosch Kolleg. Pedro has also earned an Advanced Product Engineering Certification from Bosch (BTC).
